ISO 9001:2015 Certified

COMPANY OVERVIEW

Sturdy Grinding & Machining, Inc. is a Michigan-based precision grinding and machining manufacturer specializing in high-tolerance grinding, honing, and finishing services. Since 1988, we have delivered quality manufacturing solutions for customers requiring exceptional precision, superior surface finishes, and dependable delivery. Our capabilities support aerospace, defense, automotive, medical, energy, and industrial manufacturing applications.

CORE COMPETENCIES	DIFFERENTIATORS
• CNC O.D. Grinding	• Established in 1988
• Centerless Thru-Feed Grinding	• ISO 9001:2015 Certified
• Centerless End Feed / Plunge Grinding	• Precision tolerances up to 0.0002"
• Precision Bar Stock Grinding	• Diameters from 0.090" to 11"
• Tube Grinding	• Length capabilities up to 41 feet
• I.D. Honing	• Experienced precision workforce
• Cylinder Honing	• Competitive pricing & responsive quotes
• Straightening & Polishing	• Reliable delivery performance
• Statistical Process Control (SPC)	• High-volume and custom production
• Prototype & Production Runs	• Complex multi-diameter components

Capabilities and manufacturing specifications are published by Sturdy Grinding.

INDUSTRIES SERVED

Defense ● Aerospace ● Automotive ● Medical Devices ● Energy/Oil & Gas ● Industrial Manufacturing
